

Refurbishment Eaves Ventilator

CODE **G645**

15,000mm² AIRFLOW PER PANEL

Description:

The G645 Refurbishment Eaves Ventilator is designed to be used in refurbishment situations and is fitted from inside the roof space to create a clear air gap between the loft insulation and felt, its flexible hinge enables it to achieve any roof pitch.

The G645 Refurbishment Eaves Ventilator Panel is for 600mm rafter centres a 400mm version is also available.

Fitting Instructions:

The G645 Refurbishment Panel (A) should be folded to achieve the desired roof pitch and pushed into the eaves detail. The loft insulation should be firmly tucked into the back of the refurbishment panel as shown.

Use in conjunction with other products from the Manthorpe range to provide a complete roof ventilation system.
