

**Variable Dimensions:**

**Minimum 150mm x 150mm**  
**Maximum 500mm x 500mm**  
 (or equivalent area)

**Max. Weight of Panel: 5kg**

**Description**

The Manthorpe Tile Access Panel Contract Pack is a cost effective tiled access panel solution aimed at the professional housebuilder and tiler. Each pack contains 5 Tile Access Panel kits.

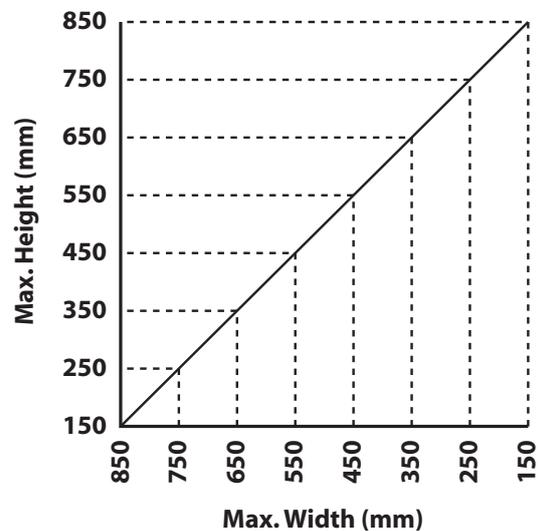

The Tile Access Panel is quick and easy to fit. Its inclusion into the décor of the bathroom or kitchen ensures a seamless blend with the rest of the tiling. The overall look is preserved, and when access to services is required, a light touch releases a magnetic catch and the panel opens smoothly. Completely flexible, the Tile Access Panel can be cut to fit the exact size needed.

The size of the access panel must not exceed the maximum weight and dimensions stated above. For rectangular openings, use the graph on the right to help calculate the maximum opening size for the Access Panel.

The Access Panel can be installed into all existing wall panel materials whether it is plasterboard or tile backer board of any thickness. The finished Tile Access Panel will always fit flush with the surrounding tiles. The Contract Pack is compatible with any 6mm thickness tile backer board (not included).

Once complete the Manthorpe Tile Access Panel can be accessed effortlessly by pressing on the magnetic touch catches and then fully releasing the panel from its hinges.
