Specification																	
Colours	White																
Packing Details	20 per box																
Weight	0.735 kg																
Materials (Main body) (Grommets)	High impact polystyrene Thermoplastic elastomer																
Manufacturing process	Injection moulded																
<table><tr><th colspan="2">Description</th></tr><tr><td colspan="2"><p>The Single Exit Radiator Pipe Guide &amp; Seal is designed particularly for use with larger radiator units where a third radiator bracket is fastened mid way along the radiator, and the distance from the centre of the radiator is sufficient to cause excessive pipe sag, which may leave the pipe visible below the bottom of the radiator. The unit is slim enough to fit behind the radiator and will provide a draught seal to help achieve the new air leakage requirements of the modern building regulations. Due to its face-fix nature, the product is ideal for studded wall details.</p><p><b>Suitable for use with all 10mm plastic pipes.</b></p></td></tr></table>						Description		<p>The Single Exit Radiator Pipe Guide &amp; Seal is designed particularly for use with larger radiator units where a third radiator bracket is fastened mid way along the radiator, and the distance from the centre of the radiator is sufficient to cause excessive pipe sag, which may leave the pipe visible below the bottom of the radiator.
