

Aluminium Corner

RE100

Technical Data

An attractive, contemporary alternative to purpose built, rendered lead or aluminium capped parapets. For use on exposed system edges to maintain the integrity of the green roof system during aeolian or storm events.

Physical Properties

Material	A mid sheen 1.5 mm thickness aluminium up- stand and connecting plate, perforated for drainage.
Thickness	1.5 mm
Finish	Mid sheen natural (unpainted)

Optional accessories

Powder coating	Choose any colour from RAL colour chart
Height	Variety of heights available to order.
Corner Connectors	Available to order.

Dimensions

Height	100 mm
Length	2.4 m
Base	100 mm
Lengths Per Pallet	Maximum of 210 lengths (504lm) per pallet

Specification Description

Can be loosely laid and ballasted in place, but recommended to be glued in place. Adhesive is available from Sky Garden Ltd, however we recommend that any adhesive used is checked with the waterproof membrane manufacturer before use. The aluminium edging is lightweight, robust and can be cut to length, slots cut into edging for drainage requirements.
