

ESTERDAN® REINFORCED BITUMEN MEMBRANES

Commonly known as roofing felt, our range of **ESTERDAN® REINFORCED BITUMEN MEMBRANES** are specially formulated polymer modified roofing sheets comprised of 3 key components: a polymer modified bitumen compound, a reinforcement layer and a variety of upper and lower surface finishes.

- B_{ROOF}(t4) fire tests declared on the BBA certificate. B_{ROOF}(t4) systems can be used unrestricted according to Approved Document B of the Building Regulations.
- 30+ year life expectancy.
- Highly flexible with impressive elastic recovery, contributing to self-healing properties.
- Polyester reinforced ESTERDAN® products, with glass fibre reinforced complimentary GLASDAN® products.
