

## CAPPED COMPOSITE Double End Profile Trim 2.5m

Cladco Double End Trims for Slatted Wall Cladding projects provide a finishing profile for Panels during installation. The Double End Trims feature two slats and an overlapping lip, hiding the fixings from the last Slatted Panel.

These Trims are fixed to the supporting Battens underneath through the channel between the two slats. Featuring a textured grain effect, Double End Trims will blend into your Cladding project.

Measuring 2.5-metres in length, End Trims will run alongside the last Panel of your project for a neat, professional end piece.

Contact us on 01837 659901 for more information about these Trims and other Cladco Slatted Wall Cladding products.
