

## CAPPED COMPOSITE External Corner Trim 2.5m

Cladco Capped Composite External Corner Trims measuring 2.5-metres long enable Slatted Wall Cladding Panels to be installed around external corners of your building.

Manufactured from a composite wood-plastic mix which has been capped with a hard-wearing casing to provide resistance to rot and damage by insects.

Installed alongside Slatted Cladding Panels with a tongue-and-groove fitting, External Corner Trims are easy to work with when working around corners.

For more information on installing Slatted Cladding Panels and Trims, please read our Installation Guide.
