PLUG IN SOLAR DIY KITS INCLUDE **EVERYTHING YOU NEED TO COMPLETE YOUR OWN SOLAR PV INSTALLATION** WITHOUT THE REQUIREMENT FOR A DEDICATED INSTALLATION TEAM\*

### Why Choose a Plug In Solar DIY Kit?

-  **Simplicity**  
Plug and Play System (Self-Install)\*
-  **Safety**  
All AC Wiring (No High Voltage DC)
-  **Power**  
Individually Optimised Solar Panels
-  **Reliability**  
25 Year Micro-Inverter Warranty
-  **Scalability**  
Modular design (add more Solar panels in the future)
-  **Intelligence**  
Monitor each Solar Panel individually
-  **Customisable**  
Choose from a range of Solar panels & mounting systems

\*Final connection to the grid must be made and signed off by a qualified electrician  
All electrical work must comply with the latest IET Wiring Regulations and Codes of Practice  
Please visit the [important information page](#) on our website for more information on regulations

# SELF-INSTALL SOLAR PV KITS

the beauty is in the simplicity

Plug In Solar is a DIY Grid-Tied solar power kit, which allows you to generate **FREE ELECTRICITY** you can use to power appliances in your home.

No need for an EPC inspection, MCS Certification or The Smart Export Guarantee (SEG).

Plug In Solar kits include everything you need to start saving money on your electricity bills, **WITHOUT** government incentives.
