www.groundtex.co.uk

INSTALLATION GUIDELINES

(for use as a heavy duty weed control membrane)

1. Prepare the area where the fabric is to be laid by strimming any existing vegetation down to ground level.

2. Remove any stalks or sharp objects that could pierce the fabric.

3. For areas badly affected by weed growth, apply a suitable weedkiller.

4. Lay the GROUNDTEX fabric out and ensure joints are overlapped by a minimum of 100mm.

5. Secure using EXTRAFIX fixing pegs. The best way to secure the edges of the fabric is by 'spitting' or 'trenching' the fabric 100-150mm into the soil.

6. Place potted plants on to the fabric, using the lines to determine an equal distance between rows.

NOTES

1. GROUNDTEX will suppress most weeds but particular attention should be paid to very invasive weeds/grasses such as Mare's Tail, Bindweed, Crocosmia, Ground Elder, Couch Grass, nettles, brambles and some bulbs. A weedkiller should be applied first and then we would recommend laying a double layer of GROUNDTEX.

PRODUCT SIZES

CODE	PRODUCT	WIDTH	LENGTH	AREA	UNIT
GGC1	**Midi Rolls** For medium size projects	1.0m	50m	50m^2	roll
GGC2		2.0m	50m	100m^2	roll
GGC3		3.3m	50m	165m^2	roll
GGC4		4.2m	50m	210m^2	roll
GGC5		5.0m	50m	250m^2	roll
GGC10	**Maxi Rolls** For larger size projects	1.0m	100m	100m^2	roll
GGC15		1.5m	100m	150m^2	roll
GGC20		2.0m	100m	200m^2	roll
