## Permo<sup>®</sup> extreme RS SK2

**New half roll available now  
(37.5m<sup>2</sup>) perfect for smaller roofing projects**

Permo<sup>®</sup> extreme RS SK2 is a tear-resistant underlay, designed for use on low pitched roofs.

- Minimum roof pitch of 12.5° for profile tiles, 15° for slates and 22.5° for plain tiles
- Double self-adhesive strips permit permanent wind and waterproof sealing of overlaps
- Weatherproof protection against wind, rain and snow
- A simple, easy to use system to allow roof coverings to be used at lower pitches
- Fitted before the roof covering is installed, allowing for easy installation
- Available in sizes 75m<sup>2</sup> and 37.5m<sup>2</sup>
