

## Continuous Rafter Tray

Continuous Rafter Trays are a simple but effective way of preventing loft insulation from being pushed up to the underside of the roofing underlay and will maintain a clear ventilation path into the roof void from the eaves.

The rafter trays will be suitable for 10,000mm<sup>2</sup>/m or 25,000mm<sup>2</sup>/m continuous eaves ventilation.

### Features & Benefits

- Simple to fit and install
- Supplied in convenient 6m rolls
- Roof pitches over 12.5°
- Durable and totally resistant to decay
- A proven way of meeting requirements
- Provides an airway between underlay and insulation
- Suitable for new build and re-roofing projects

### Technical Details

<b>Product Code</b>	RPV
<b>Material</b>	Recycled PVC
<b>Length</b>	6m
<b>Pack qty</b>	10 Rolls
