

One-Fix Eaves Ventilation System 10mm (3 in 1)

The One-Fix System cuts out the potential requirement for three separate fixings, thereby reducing labour costs. Manufactured from UV stabilised, 100% recycled polypropylene.

Unique Split Skirt™ feature, which allows 240mm sections to be lifted to provide ease of installation of gutter brackets. Strengthening ribs on underside are designed not to interfere with installation of gutter brackets.

Features & Benefits

- 3 in 1 eaves ventilation solution
- Eliminates the need for 3 separate fixings
- Suitable for roofs from 15 - 70 degrees pitch
- Provides 10mm continuous ventilation over the fascia.
- Preformed nail channels ensure vertical nailing.
- Integrated nibs to align ventilator over the centre of the fascia board.
- Prevents the ingress of birds, vermin & debris when using profiled tiles.
- 15 year product guarantee
- Manufactured from recycled polypropylene and can be recycled.

Technical Details

Product Code	OVEP310
Material	Recycled polypropylene
Length	1.0m
Pack Qty	20
Pack weight	9.00Kg
Pallet Qty	240
Ventilation area	10,000mm ² /m

Quality Standards & Certification
