

Available in 2 sizes
 1200 x 150 x 3.2mm (1000/pallet)
 2400 x 150 x 4.5mm (420/pallet)

PRIMAflex™
Undercloak

PRIMAflex™ Undercloak is a strong fibre cement strip that is fixed at the roof verge, beneath the battens. It provides an ideal support for a mortar bed.

PRIMAflex™ Undercloak allows for good mortar adhesion also offering a clean finish to the verge detail.

PRIMAflex™ is the first choice in flat sheets among industry professionals for ceilings, partitions, gable ends, wall cladding, paneling, and a host of other building applications. **PRIMAflex™** has a unique combination of physical and mechanical properties that make it superior to other boards.

PRIMAflex™ is autoclaved for superior durability & flexibility. This process cures the product, giving it outstanding dimensional stability. Quality has never been better with the state-of-the-art technology and ultra modern processes employed in the manufacture of **PRIMAflex™**.

Properties			
Density	-	Dry	1300kg/m3
	-	EMC	1390 kg/m3
Reaction to Fire	-	EN13501-1	A1 non combustible
Modulus of Rupture (Wet)	-	Cat A, Class 2	BS EN12467:2012+ A1 2016
Permeability	-	BS EN12467:2012+	A1 2016
