

PREMIUM PVC WOODGRAIN EFFECT Bullnose Board 3.6m

Cladco Premium PVC Bullnose Boards have superior high-end co-extrusion technology with a rounded edge, designed to finish off your PVC Decking area. Cladco PVC Decking Boards are timber-free which reduces risk of fading, scratching or staining, but will still achieve a natural timber-like effect without compromising on quality.

The dense core within Bullnose Boards are made from tough PVC which is covered in ASA (acrylic-styrene-acrylonitrile) the highest quality weather-resistant resin available. This superior material offers both strength and durability even in wet weather conditions.

Premium PVC Bullnose Boards are manufactured from the same high-end synthetic material to complement the Premium PVC Decking Range and are a great solution for customers wanting a superior Decking product at a competitive price.

Benefits of PVC Bullnose Boards

Cladco PVC Bullnose Boards feature a highly weather-resistant resin shell, which is a material commonly used by premium vehicle manufacturers for car parts. This is due to its resilience and toughness properties, providing resistance to moisture, mould, harmful UV rays and rot.

Premium PVC Bullnose Boards are suitable for Decking projects which require the Decking to be installed low to the ground and in areas which are prone to damp. The PVC material has superior moisture-resistance, ensuring even the wettest areas

can benefit from installing Premium PVC Decking.

Premium PVC Bullnose Boards can be installed in areas that are prone to moisture such as around swimming pools and hot tubs. The ASA coating on this Decking ensures a robust and sturdy exterior that is resistant to stains or scratches. The PVC material is non-porous, which ensures most stains can be simply be wiped off.

Premium PVC Bullnose Decking is easy to maintain, simply wash it regularly with soap and water. Keep it looking its very best with an occasional pressure wash.

SPECIFICATIONS
