INSULATION

# SUPASOFT

## INSULATION

[www.supasoftinsulation.com](http://www.supasoftinsulation.com)

We've turned duvet and pillow technology into long lasting, safe, sustainable and cost effective insulation for your home. Made from recycled polyester, SupaSoft contains no harmful chemicals or binders and is completely safe to handle and install.

SupaSoft can be used to insulate between and over joists or simply laid on top of existing insulation to improve overall performance.

### Key Facts

- |   |  |
|---|--|
|  Width (mm) – 390, 590           |  Can be recycled                  |
