

SuperFOIL

GENERAL PURPOSE WRAP

KEY FEATURES

- SF General Purpose Wrap is a leading multi-layer air bubble insulation with aluminium bonded to the outer surfaces. The coated aluminium faces offer durability and protection against corrosion to give a waterproof insulation system.
- Can be used for insulating under floor, in walls, in dry lining such as for cellars and can also be used in greenhouses and other industrial applications.
- Waterproof and resists the passage of moisture through walls, floors and ceilings.
- SF General Purpose wrap reflects heat, just like a mirror reflects light. SFBA is an ideal radiant barrier for supplementing existing insulation to keep your house warmer in winter and cooler in summer.
- Enhances U-values in traditional cavity wall construction to meet and/or exceed current Building Regulations.
- Just one product in a wide range of SuperFOIL products designed to maximise insulation performance with a quick and easy installation.

TECHNICAL

Thermal Performance

Core Performance	0.12 R Value
Roof Performance	0.97 R Value
Wall Performance	1.33 R Value
Floor Performance	2.33 R Value

Product Dimensions

Thickness	3mm
Length	7m
Width	1m
Coverage	7m ²
Weight	1.5kg

Product Composition

Laminated Aluminium Foil	2
Air Bubble	1
Total Layers	3
