

**SUPPORT PLATE FOR PAVING C3/4T**

**Support plate for paving for Caro Pedestal**

Support plate :	Consisting of 1 piece.
Material :	UV-resistant Thermoplastic elastomer.
Colour :	Black.
Joint width :	3 mm.
Temperature resistance :	- 20 / +80°C.
Height of the lips :	15 mm.
Diameter :	122 mm.
Weight :	38 g/pc.
Maximum weight to support :	Tiles of 600x600mm.(2,25 pcs/m2) - 1.350 kg/m2. Tiles of 500x500mm.(4,00 pcs/m2) - 2.400 kg/m2. Tiles of 400x400mm.(6,25 pcs/m2) - 3.750 kg/m2.
Product code :	C3/4T

The support plate is compatible with the following parts :	RC14	(product datasheet is available).
	RC24	(product datasheet is available).
	PV5/9	(product datasheet is available).
	PV9/13	(product datasheet is available).
	PV11/15	(product datasheet is available).
	PV15/19	(product datasheet is available).
	F35	(product datasheet is available).

- Packaging :
- Standard packaging:
    - o Quantity : 250 pcs/PP-bag (pic.1).
  - Standard pallet :
    - o Dimensions : 1200 x 1100 x 2000 mm.
    - o Pallet weight : 188 kg.
    - o Quantity : 16 PP-bags/pallet - 4000 pieces.
