

TECHNICAL DATA SHEET

54310 WATERTITE THERMAL GLOVE

DESCRIPTION

Blackrock's Watertite Thermal grip glove is waterproof to wrist level, making it ideal for working in wet conditions. The 10 gauge brushed terry liner keeps the wearer warm, with the sandy latex palm giving excellent wet and dry grip. It also features an elasticated wrist for a comfortable and secure fit.

SIZES

UK 8-11

STANDARDS

EN388 2141X
EN420
EN511 X2X

KEY FEATURES

- Fully waterproof to wrist level
- Thermal lining for warmth
- Sandy latex palm for excellent wet and dry grip
- Elasticated wrist for secure fit

- Blade Cut Resistance
- Abrasion Resistance

MARKINGS

EN511 is a European standard which specifies requirements for gloves that offer protection from cold. EN511 testing measures the performance of the glove against convective and contact cold down to -50c and permeability by water.

EN388:2016 is a European standard which specifies requirements, test methods, marking and information for protective gloves against the mechanical risk of abrasion, blade cut, tear, puncture and, if applicable, impact.

BACK OF HAND

The mechanical hazard rating can be found on the glove back of hand.
